ENGRAVING TIPS

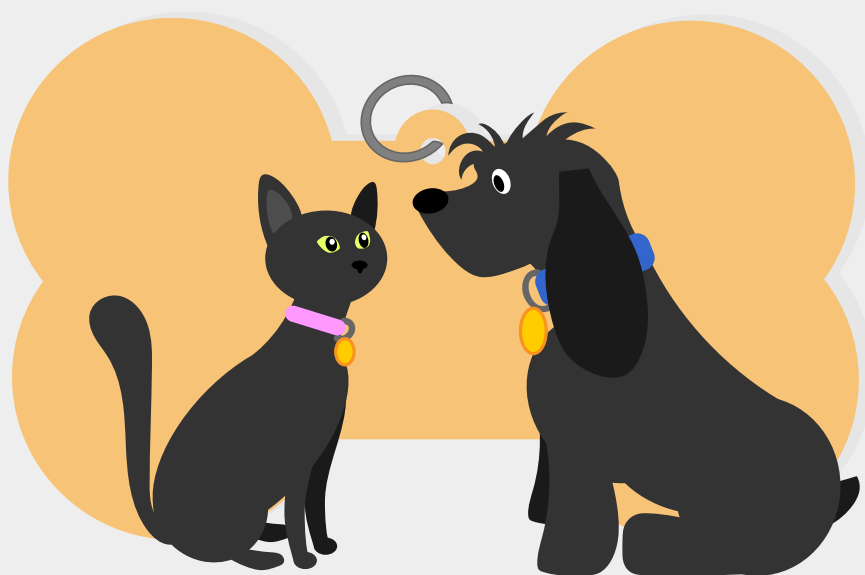

The typography applies only to the name of the pet, the rest of the information is engraved in arial font (We want your pet to be the prettiest in the neighborhood 🥰, but also that your contact information is read perfectly 🧐)

All engraving is centralised on the tag. (We love balance 🙏)

We advise you to only put the necessary information on the tag, because the less text, the larger and more readable it will be (Less is more 😊)

The fonts are made up of characters, that is, numbers, letters, punctuation marks, spaces ... Emoticons are not part of a typography (Even if you see something like this 😊 we get something like this ✖)

Fill in the engraving information carefully. We do not correct the spelling, and we do not have the ability to know if the information you are writing us is correct. (Take your time checking it, we will hurry to engrave it for you 😊)
